YANET RODRIGUEZ

Senior mobile developer - Android & iOS

ABOUT ME

Mobile developer with 5+ years of experience in native iOS and Android apps, specialized in Swift, SwiftUI, Combine, and Kotlin with Jetpack Compose and KMM. I lead technical decisions, define architectures, and mentor junior developers. Available for immediate relocation to Spain.

RELEVANT WORK EXPERIENCE

IOS DEVELOPER — SENIOR

Personal – Buenos Aires (October 2022 - Present)

Native iOS development for a large-scale entertainment app (live TV, VOD, series) serving millions of users across Argentina.

- Built and maintained features using Swift, UIKit, SwiftUI and Combine, following VIPER and MVVM architectural patterns.
- Integrated Kotlin Multiplatform (KMP) shared modules into the iOS codebase, coordinating with the Android team to ensure consistency across platforms.
- Drove adoption of async/await and reactive programming with Combine; resolved complex Swift 6 strict concurrency warnings across a media streaming codebase, improving code readability and stability.
- Mentored junior iOS developers through code reviews, pair programming and architectural guidance, contributing to team growth and knowledge sharing.
- Lead mobile technical decisions for the Home & Feature Discovery team, defining component structure, data flow and coding standards.
- Collaborated closely with QA, Design and Backend in an agile (Scrum) environment using Jira and Confluence.
- Contributed to improving app stability by identifying and resolving performance bottlenecks and memory management issues.

IOS DEVELOPER — TECH LEAD

Mutual del Tiro - Rafaela, Santa Fe (July 2023 - September 2023)

- Lead end-to-end development of a native iOS app using Swift, SwiftUI and REST APIs with URLSession.
- Owned the full release cycle: architecture design, implementation, testing and App Store submission and approval.
- Applied MVVM pattern and CoreData for local persistence, ensuring offline capability.
- Sole developer responsible for all technical decisions, client communication and delivery timeline.

ANDROID SOFTWARE DEVELOPER

Nexo Soluciones - San Francisco, Córdoba (March 2021 - October 2022)

- Native Android development in Kotlin with MVVM, Coroutines, Flow and Jetpack components (Navigation, ViewModel, LiveData).
- Managed app lifecycle on Google Play Console, integrated Firebase (Analytics, Crashlytics, FCM) and Google Cloud services.
- Lead Java-to-Kotlin migration and implemented unit tests with JUnit and Mockito, improving code coverage and reliability.
- Worked in Scrum teams using GitHub, Jira and Confluence, participating in sprint planning and retrospectives.

ANDROID SOFTWARE DEVELOPER

VMG–FAR – Santa Fe, Rafaela (October 2019 - March 2021)

- Developed mobile applications and internal tools for production line management.
- Administered PostgreSQL, MySQL and SQL Server databases.
- Server support and maintenance.

yane.rodriguez26@gmail.com

@yanetDev26

Zaragoza, Aragón, España.

TECHNICAL SKILLS

- Swift (UIKit, SwiftUI, Combine, Foundation, CoreData).
- Kotlin (Android SDK, Coroutines, Flow, Jetpack Compose, Room).
- Kotlin Multiplatform (KMP).
- SCRUM, Jira, Confluence.
- GitLab, GitHub, Sourcetree.

SOFT SKILLS

Team collaboration
Comfortable working in agile teams and collaborating with designers, developers, and QA.

Continuous learning
Passionate about staying up-to-date with the latest mobile trends and tools.

Problem-solving
Proactive in identifying and resolving bugs and improving app performance.

Communication
Clear communicator, both written and verbal, in team environments and documentation.

EDUCATION

- COMPUTER ENGINEERING

Catholic University of Santiago del Estero

- PRODUCTION OF GOODS AND SERVICES

Professional Technical Education School N°495
